

# Splunk Education Basic Subscription

Knowledge Manager and Search Expert Learning Paths

## US Navy

Thank you for purchasing the subscription service for the [Splunk eLearning Knowledge Manager and Search Expert learning paths](#). The courses included in this package come complete with servers for the hands-on lab activities, as well as an engaging mix of video, animation, and demos. This document lays out the terms as well as practical information about how to register for the training. Any questions regarding this document or how to sign-up for the courses, please email [education@splunk.com](mailto:education@splunk.com). View our full curriculum at <https://www.splunk.com/education>.

## Subscription Terms

Your subscription starts on **2 February, 2025** and will expire on **1 February, 2026**. During this time, anyone with an email address with the domain **@us.navy.mil & @navy.mil** will be allowed to register and take each class with the fee waived as long as they are using their company email. As per our normal terms, the class can only be signed up for once. Individuals will be able to access the content for each course for 12 months. Labs will be accessible up to three times during the 12-month period. Each lab session is four hours in duration. For help with the videos, quizzes, or labs, please contact [eLearn@splunk.com](mailto:eLearn@splunk.com).

## Courses Included

The following courses are included in this subscription package:
